Skills

- 🔗 Testing & QA
- Regression Testing, API Testing, Functional Testing, Manual Testing, Test Case Design & Execution, Bug Tracking & Reporting
- 🔗 Testing Tools
- Postman, Jest
- 🔗 Programming & Scripting
- JavaScript, TypeScript, Python, Java, C#
- 🔗 Development Tools & Workflow
- Git/GitHub, Apache Maven, CI/CD, Agile/Scrum
- 🔗 Web & Mobile Technologies
- React, React Native, Vue.js, HTML, CSS, TailwindCSS
- 🔗 Databases & Backend
- PostgreSQL (Supabase), MySQL, SQLite, SQL Server, SQL, Node.js, Express, REST APIs
- 🔗 Core Knowledge
- Software Development Life Cycle (SDLC), Object-Oriented Programming (OOP), Data Structures & Algorithms, Debugging & Root Cause Analysis
- 🔗 Soft Skills
- Problem-solving, Attention to Detail, Collaboration, Communication, Fast Learner

Detail-oriented Software Engineer with experience developing full-stack applications and ensuring software quality through manual testing, API testing, and automated testing. Skilled in React Native, TypeScript, Node.js, PostgreSQL, Git, Postman, and Jest. Strong analytical and problem-solving skills with a passion for building scalable, reliable applications.

Projects

Shareable Meals Feb 2025 - Sept 2025

Tech Stack: React Native, TypeScript, Node.js, Express, Supabase (PostgreSQL), Vercel, GitHub, Jest, Postman

- Designed and developed a full-stack meal planning application that allows users to create, edit, organize, and share meals while tracking nutritional information.
- Built RESTful APIs and integrated Supabase for authentication, database management, and cloud synchronization across mobile devices.
- Designed and executed manual test cases, performed API testing with Postman, and resolved frontend and backend defects throughout development.
- Developed automated unit tests with Jest and used GitHub for version control and collaborative development.

Chore Quest Sept 2025 - Dec 2025

Tech Stack: React Native, TypeScript, TailwindCSS, Supabase, GitHub, Jest, Postman

- Designed and developed a gamified household chore application with parent and child accounts, chore assignments, XP progression, rewards, and achievements.
- Built backend functionality using Supabase for authentication, real-time data synchronization, and database management.
- Executed manual test cases, validated backend APIs with Postman, and identified and resolved issues involving real-time synchronization and application functionality.
- Developed automated unit tests with Jest to verify core application logic and improve application reliability.

Unity Tower Defense

- Built a basic 2D tower defense prototype using Unity and C#.
- Implemented gameplay logic and learned C# scripting, debugging, and Unity's component-based architecture.

Experience

Dairy Queen Vienna, IL

Crew Member 2021 - Present

- Prepare customer orders while maintaining quality, consistency, and food safety standards in a fast-paced environment.
- Collaborate with team members to manage changing priorities and maintain efficient kitchen operations during peak business hours.
- Follow standardized procedures to ensure order accuracy and minimize errors under time constraints.

Education

Murray State University
Computer Science

Bachelor's

Aug 2023 - May 2025

Relevant Coursework: Web Application Development, Data Structures, Algorithms, Software Construction.

Academic Projects:

- HR Management System – Implemented authentication using Java Swing.
- Pathfinding Visualizer – Developed a grid-based pathfinder with Java.
- Scholarship Tracker – Designed SQL Server + Access database workflows.

Shawnee Community College
Aug, 2022 - May 2023

Associate's
